DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Timothy J. O'Sullivan (35,632) on 24 March 2005 at 5 p.m. EST.

2. The application has been amended as follows:

In the claims:

In claim 34,

Line 9, replace the ".." with --; and --

Line 10, insert **"setting the at least one threshold value of data so as to provide a tree map visualization having a predefined minimum bounding box area that is greater than a minimum area for a bounding box that is greater than a minimum area for a bounding box that a display device is capable of displaying by evaluating data in the first data set to establish the at least one threshold value so as to provide a tree map visualization having the predefined minimum bounding box area."**

3. The following is an examiner's statement of reasons for allowance:

The prior art does not teach the specific combination of a threshold value of data so as to provide a minimum bounding box area that is greater than a minimum area that

can be displayed by the display device by evaluating a data set to find the threshold value to generate the tree map visualization. While prior art tree-map visualization structures provide some level of control over the size of the bounding boxes, none of them allowed effective control of the minimum size in an automatic manner, and none of them provided the idea of a threshold value in combination with evaluating the data set to obtain it. The prior art does teach filtering a first tree map to generate a second tree map with less data, but as stated above, the combination of the threshold and limitations on the bounding box are novel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
